VEHICLE

INTRODUCING THE
RVE CONFIGURATOR

RVE
Driven by Design

WE CREATE PASSION

WHO ARE WE

RVE is committed to exceeding customer expectations with a culture that strives to deliver more than expected. RVE specialises in 'Special Edition' packages that bridge the gap between the manufacturer options and the vehicle owners desires.

We are a design company that creates products and packages that go above and beyond the mainstream constraints of mass production. We are a 'one-stop-shop' that designs, consults, develops and supplies unique competitive packages to dealerships and vehicle distributors.

RVE enhanced vehicles are a statement of personality that will make the neighbours envious while giving the owner a deep sense of achievement.
